

Welcome!

Get started with Print To Go

Use Print To Go to print a variety of files, including documents, webpages, and diagrams, from your computer to your BlackBerry device over the wireless network. Getting started is easy! Here's how:

- To download the Print To Go software, on your computer, browse to www.blackberry.com/PrintToGo. Complete the instructions on the screen.
- On your computer, open a file. Print the file, and select **Print To Go** as the printer.
- Enter your BlackBerry ID and password, then complete the steps to pair your BlackBerry device with Print To Go.
- When printing is complete, open **Print To Go** on your device, and tap the file to open it.
